

LYV-GWMA CAFO/Livestock Work Group

**Meeting Agenda
Thursday, April 9, 2015 5:00pm
KDNA, Granger**

Agenda

1. Review GWMA Project Timeline and discuss recommendations back to the GWAC
2. Discuss options for arriving at nitrate loading estimates for pens, manure storage areas, and lagoons
3. Determine how various studies should be evaluated for credibility, relevance, etc.

Source documents:

The U.C. Davis study by Harter in California:
